To acquire valuable knowledge and skills to use what I have learned and applied to an actual job environment. In return, I offer my service and determination to be an asset to your Company.

PROJECTS

CAPSTONE PROJECT: eBICOL UNIVERSITY PROVIDENT FUND, INC.

Participated in the design, implementation, and deployment phases of our capstone project as a Full-Stack Developer. Our technology stack included the utilization of the Laravel Framework, Bootstrap, CSS, HTML, and JavaScript. Throughout the development process, engaged in effective collaboration with team members, utilizing Git and GitHub for version control.
